Per our discussion today, you would be afforded an extension of time for your client through July 5th in consideration for 40 days of tolling. Based on the receipt date you have indicated to me, your client was out of time to respond on June 15th.

Finally, we have determined that your complaint is proper and your client has received notice as required under the Act.

It is my understanding that you will follow up with me tomorrow to confirm your intentions with respect to filing a response.

I can be reached on my work phone today at

Thanks, Jeff
